

*Lady P.*

## Welcome on Board

There are only a few yachts that can cruise under any weather conditions anywhere in the world.

"Lady P." is one of the finest custom built yachts, ABS certified for transatlantic range.

The famous naval architect Professor Ruggiero and the experienced Mega Yacht Designer Sakiotis, after years of research have created a real masterpiece. This "Little Ship" is superb in every detail, from the massively rigid hull, aluminum superstructure and high technology engineering to the elegant hand crafted staterooms.

The layout of this semi-displacement hull is unique with a high degree of attention to detail and exquisite styling.

The cherry and briar wood joinery is complimented by natural leather and silk for "Royal" personality.

Designed and built for Luxury cruises with highest possible comfort and pleasure.

This is your private five star floating hotel.

"Lady P." is constructed under strict safety standards with very strong steel hull and bulbous bow, a feature found on larger yachts and ships, using the latest technology of NASA designed zero speed fin stabilizers and free of noise and vibration under way, so only the natural sound and the motion of waves is heard.

*Timeless & Elegant Superyacht Style*

## Upper Deck

Moving to the upper deck you are immediately greeted by the spacious outside arrangement, featuring a large sunbathing and seating area with 3 splendid tables, that is comfortably shadowed by two electrical bimini covers retractable from radar arch. Dining "al fresco" on the sun deck is one of the joys of warm weather cruising. Later a dip in the hydro massage pool offers a different kind of refreshment. The curved refrigerated bar, the large barbecue and entertainment center enhance the pleasure of relaxation and outdoor living.

Welcome on board at the aft deck. Reflecting the inviting nature of this unique vessel with the oval table and cozy seating area just in front of the saloon refrigerated cocktail bar, this is another ideal spot to relax and enjoy life. Finally for water sport lovers the latest equipment awaits with crew on hand to offer the ultimate pleasure. Water-ski, jet ski, snorkeling, diving equipment and 2 tenders, one high speed with diesel jet from the big garage at transom - the way mega yachts are built are ready for fun.

## Saloon

*As soon as you step through the electrical-opening glass sliding door which leads to the welcoming main saloon, you will immediately feel the atmosphere and come to realize the difference from other yachts even much bigger in length.*

*From the first glance you will be stunned by the interior decoration and blend of soft colors, genuine leathers and unique furniture, which are a perfect example of the warm-cosmopolitan Italian style. Even the audio system is sophisticated Hi-End, including hidden motorized Hi-Resolution Plasma T.V.*

## Dining Service

*Luxury first class service at your fingertips. Fine and elegant formal dining with comfortable seating for a party of eight guests.*

*The highly professional crew will provide the best service.  
Just relax and enjoy unforgettable culinary delights accompanied with chilled  
vintage wine or champagne*

*Detail of Handcrafted Onyx Floor*

*Main Deck Suite with Panoramic Sea View*

*Step on board and forget it all. Your private five star floating hotel welcomes you for relaxation. Dreamy and luxurious spacious cabins with every comfort, bathrooms with jacuzzi hydro massage, affion beautiful marbles and silk create a cozy atmosphere. Even Hi-End Home Cinema is provided for your private entertainment.*

## Lower Deck Royal Owner Suite

*For your relaxation and pleasure enjoy the Jacuzzi tub which is surrounded by Afion marbles.*

## Guest Cabins

Even the guest cabins, one with twin bed and another with three beds are luxurious and the bathrooms are surrounded by Afion marble and shower with hydromassage in every cabin. They all provide complete comfort and the guest cabins also are equipped with large wardrobes, Hi-Fi Flat T.V.'s, DVD for Home Cinema and International Mini-M plus GSM Telephone connection for voice, e-mail or internet communication.

## Galley

*The Extraordinary Galley made of solid granite and stainless steel, perfectly equipped with the latest MIELE kitchen equipment and large work area is every chef's dream.*

## Wheelhouse

"Space technology" wheelhouse, equipped with commercial hi-tech navigation and GMDSS communication equipment, includes large IMO color ARPA Radar and two secondary radars, Digital Gyro, double satellite global communication for voice, e-mail, fax and internet with computer and even an international SAT-T.V. program from SEATEL system.

## Aft-Deck - Garage

For water sport lovers the latest equipment awaits with crew on hand to offer the ultimate pleasure.

Water-ski, jet ski, snorkeling diving equipment and 2 tenders, one high speed with diesel jet from the big garage at transom - the way mega yachts are built.

## Engine Room

"Lady P." complies in construction terms with the strict safety directives of American Bureau of Shipping which has surveyed each stage of its construction. The engine room is sound isolated, equipped with full remoted Caterpillar electronic engine vision control and two heavy-duty Caterpillar 3412E engines that can reach a top speed of 15,3 knots.

## Steel Displacement Hull with Bullbous Bow

Enourmous displacement steel hull with bullbous bow, ideal for safe and comfortable trips even at very rough seas with extremely low fuel consumption. The Hi-tech intergrade hydraulic system drives the double digital zero speed fin stabilizers controlled by sophisticated computer for extra comfort under any weather conditions although the electronic computer counts every second the complete engineering system for safe and pleasurable journeys.
